The requirement for restriction is withdrawn.

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is missing.

Claims 30-35, 48 and 49 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "effective amount" is indefinite as the claims fail to recite that which the amount to be add is effective to do. The phrase "in particular" renders the scope of the claim indefinite in that it is unclear if the following limitations are required or not. Claims 31-34 are based upon claim 30 which is indefinite for the reasons above.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

At page 1, line 2 of the instant specification please insert:-- This application is a 371 of PCT/FR03/03158, filed 24 October 2003.--.

Claims 16-29, 36-47, 50 and 51 are allowable over the prior art of record. The prior art of record fails to teach or suggest the use of pea starches having the specific

properties of the instant independent claims or the good green bonding strength and water resistance achieved therewith. Amendment of claims 30-35 and 48-49 to obviate the rejections under section 112 would place those claims in allowable condition also
